Trim-Size (Green)

Safety Area (Red)

The trim-size is the page-size of the finished booklet after it has been cut-down to final-size.

The safety area is the area in which your artwork will appear without the risk of being cut-off when the pages are cut-down to the final page-size. The safety area is approx. 0.197in away from the trim-size.

Safety distance to Trim: 0.197in

Bleed (Blue)

The bleed limit is distance you must extend any artwork that you intend to extend or "bleed" off the page. If you do not extended bleed artwork to the bleed line, there is a from Trim: 0.125in chance that the deficiency will show on the finished booklet. The bleed line is 0.125in

Bleed distance

All four sides

beyond the trim-size.

Bleed Example - Correct: The orange box extends to the bleed line.

Bleed Example - Incorrect: The orange box falls short of the bleed line.
